

**Seward Refrigeration Yorkshire** is the new name of the well-established and respected national refrigeration contractor Cooltherm Installation Services. We provide temperature control solutions for the meat processing industries and cater for the requirement of any sized business.

Our services include but are not limited to:

- **Design** of refrigeration systems with industry-leading software.
- **Supply** of all refrigeration equipment.
- **Installation** of all refrigeration equipment.
- **Commissioning** of all installed equipment.
- **Service** and Maintenance of all refrigeration equipment.
- **Electrical** wiring and control panel specification and installation.
- **BMS** systems including RDM data-manger integration.
- **Insulated panel** systems.

We can install and maintain equipment that operates rooms such as:

- **Cold Stores**
- **Freezer**
- **Blast Chillers**
- **Blast Freezers**
- **Tunnels**
- **Processing / Preparation areas**
- **Packing / Boxing / Dry goods**

With our experienced, knowledgeable, and highly efficient service and maintenance divisions we provide a comprehensive 24/7 response to both emergency callout issues and bespoke planned maintenance programmes which we provide to all our maintenance customers.

As well as servicing many happy AIMS members we are nominated contractors to Cranswick Foods, Greencore Food Group, and many abattoir and food processing companies in the independent sector.

We look forward to meeting many more AIMS members to help and advise with their current or planned refrigeration considerations and discuss any particular requirements they may have. If you would like to discuss further, please contact:

**Alan Powell – 07979 860239**
